

NPHPTP Test Schedule 2020

This is the planned schedule for the 2020 National Plant Health Proficiency Testing Program (NPHPTP) but please note that it may be amended to reflect sample panel availability should that be required. Any changes will be communicated to participants prior to the dispatch of samples.

For sample dispatch date and due date for reporting results, please refer to schedule below. Participants will be advised via email with a tracking number once samples have been dispatched. If samples are not received within 5 days for Australian laboratories and within 10 days for international laboratories, please contact ANQAP. Results may be reported before the due date listed on the schedule.

Results reported after the due date will not be accepted unless the participant contacts ANQAP before the due date with a reasonable explanation for late reporting.

Sample Dispatch: 09th February 2021

| | |
|-------|----------|
| 20/P1 | Bacteria |
| 20/P2 | Fungi |
| 20/P3 | Virus |
