

National Plant Health Proficiency Testing Program

Test Schedule 2023-2024 (Round 12)

This is the planned Test Schedule for the NPHPTP 2023-2024. Any changes to this plan will be communicated to participants prior to the dispatch of samples.

The schedule dates are listed below. Participants will be advised via email with a tracking number once samples have been dispatched. If samples are not received within 5 days for Australian laboratories and within 10 days for international laboratories, please contact ANQAP via email. Results may be reported before the due date listed below.

Results reported after the due date will not be accepted under any circumstances. Laboratories reporting results after the due date will not have their results analysed or classified. There will be a statement on the report indicating that the Laboratory did not report any results by the due date. The time and date stamp on the email containing the results received by ANQAP will be used to determine if a Laboratory has reported results by the due date. It is the responsibility of the participating Laboratory to ensure all results are reported on time.

NPHPTP Key Dates

Samples Dispatched: 30th April 2024

23/P1	Bacteria
23/P2	Fungi
23/P3	Virus
23/P4	Nematode
23/P5	Invertebrates
23/P6	Phytoplasma

Results Due: 11th June 2024

Reports Issued: 25th July 2024
